BIOPL 7400 **Fall 2011**

plant biology

the department of plant biology at cornell university

Friday Seminar Series

11:15 AM on Fridays in 404 Plant Science (Whetzel Room) unless indicated otherwise.

SEMINAR DATE	SPEAKER / AFFILIATION	TITLE	HOST
August 26th	Sandra Knapp The Natural History Museum, London	*Taxonomy in 21st Century*	Bill Crepet wlc1
September 2nd	Randy Wayne Department of Plant Biology Cornell University	*Ask not what physics can do for biology, ask what biology can do for physics."* A Plant Cell Biologist's Perspective on Einstein's Special Theory of Relativity	Bill Crepet wlc1
September 9th	Patricia Leon National University of Mexico	*Novel Signals Involved in Early Chloroplast and Leaf Development*	Klaas van Wijk kv35
September 16th	Daniel Ilut Department of Plant Biology Cornell University	*Comparative Transcriptomics in the Context of Molecular Systematics and Genome Evolution*	Bill Crepet wlc1
September 23rd	Adrienne Roeder Department of Plant Biology Cornell University	*Coordination of cell identity and cell division in the Arabidopsis sepal*	Jian Hua jh299
September 30th	Miguel Pineros Robert Holley Center for Agriculture and Health (USDA-ARS)	*Understanding Plant Stress Responses to Aluminum Toxicity: From Whole Plant Physiology to Structural-Functional Studies of Membrane Transporters*	Bill Crepet wlc1
October 7th	Christopher Topp Duke University	*High Resolution Imaging and Quantitative Genetic Analysis of Living Root Systems*	Leon Kochian lvk1
October 14th	Joshua Heazlewood Joint BioEnergy Institute Lawrence Berkley National Laboratory	*Subcellular Partitioning of Arabidopsis Plant Cell Wall Biosynthesis*	Klaas van Wijk kv35
October 21st	Chang-Jun Liu Brookhaven National Laboratory	*(Poly)phenolics in the entire plant cell wall: Biosynthesis, deposition and manipulation*	Susheng Gan susheng.gan@cornell.edu
October 28th	Christian Luschnig Institute of Applied Genetics and Cell Biology, Wien	*Plant Adaptation: Short and Long Term Perspectives*	Jian Hua jh299
November 4th	Dominique Bergmann Stanford University	*Asymmetry, Fate and Renewal in Stomatal Development*	Adrian Powell afp43
November 11th	Kimberly Gallagher University of Pennsylvania	*The Ins and Outs of Protein Movement*	Adrienne Roeder ahr75
November 18th	Sondra Lazarowitz Department of Plant Pathology & Plant-Microbe Biology Cornell University	*From Virus Movement to Environmental Sensing: A Tale of Synaptotagmins*	Bill Crepet wlc1
November 25th	**NO SEMINAR – Thanksgiving Break**		
December 2nd	Kendal Hirschi Baylor College	*Plant Calcium Transporters: New Foods for Thought*	Jian Hua jh299

If you have any questions or comments, please contact,
Bill Crepet (wlc1)
