BIOPL 7400 **Spring 2013**

plant biology

the department of plant biology at cornell university

Friday Seminar Series

11:15 AM on Fridays in 404 Plant Science (Whetzel Room) unless indicated otherwise

SEMINAR DATE	SPEAKER / AFFILIATION	TITLE	HOST
January 25	**Jocelyn Rose** / Dept. of Plant Biology	*Peeling Open the Structure, Function and Evolutionary Origins of the Plant Cuticle*	Bill Crepet (wlc1)
February 1	**Lawrence Smart** / Dept. of Horticulture; Dept. of Plant Breeding & Genetics (Geneva)	*Genomic Approaches to Improve Yield and Biofuels Conversion Efficiency of Shrub Willow*	Bill Crepet (wlc1)
February 8	***NO SEMINAR** – Speaker Schedule Conflict*		
February 15	***NO SEMINAR** – Plant Biology's Graduate Student Visit Weekend*		
February 22	**Thomas Slewinski** / Dept. of Plant Biology	*Origin and Genetics of Kranz Anatomy and C4 Anatomical Specialization*	Bob Turgeon (ert2)
March 1	**Kirsten Bomblies** / Harvard	*Adaptation to Whole Genome Duplication in Arabidopsis arenosa*	Bill Crepet (wlc1)
Special Seminar Monday, March 4 Mann 102; 12:20pm	**Joao Iganci** / Universidade Federal de Santa Catarina, Brasil	*Brazilian Plants and Biomes*	Melissa Luckow (mal8)
March 8	**Zachary Lippman** / Cold Spring Harbor Laboratory, NY	*Making Flowers in Tomato and Related Nightshades*	Bill Crepet (wlc1)
March 15	***TBD***		
March 22	***NO SEMINAR** – Spring Break*		
March 29	**Peggy Brickman** / University of Georgia	*Promising Teaching Practices – DIY*	Mike Scanlon (mjs298)
University Seminar Monday, April 1 700 Clark; 12:30pm	**Stephen Pacala** / Princeton	*The Fate of the Carbon Land Sink*	Bill Crepet (wlc1) Anurag Agrawal (aa337)
April 5	**Kathrin Schrick** / Kansas State University	*Sterols, Cellulose, and START Lipid/Sterol Binding Domains from Homeodomain Transcription Factors*	Joss Rose (jr286)
April 12	**Doris Wagner** / University of Pennsylvania	*Transcriptional Reprogramming in Response to Developmental or Environmental Cues*	Jian Hua (jh299)
April 19	**Levi Yant** / Harvard	*Evo-devo and Comparative Genomics in a Model Adaptive Radiation, the Aquilegia Genus*	Bill Crepet (wlc1)
April 26	**Charles Anderson** / The Pennsylvania State University	*Witnessing the Birth of Biomass: Analysis of New Cell Wall Formation During Plant Cytokinesis*	Adrienne Roeder (ahr75)
May 3	**Andrew Knoll** / Harvard	*Systems Paleobiology*	Karl Niklas (kjn2)
May 10	**Mary Charlson** / Weill Cornell Medical College	*Roadblocks to Harnessing the Potential of Traditional Medicine*	Bill Crepet (wlc1)

If you have any questions or comments, please contact Bill Crepet (wlc1) or Polly E. Holmberg (peh58)
